TV

"SEND MORE *MenoCalm*!!!"

-Kim Gilfillan

Kim Gilfillan, a talented stained-glass artist from California, wrote and told us to "run, do not walk to the Post Office and send more *MenoCalm*!"

She's among the many women who have discovered a formula unlike any other they've tried for:

- "Hot flashes"
- Irritability
- Mood swings
- Sleep Problems

ONCE YOU EXPERIENCE THESE SYMPTOMS, YOU DISCOVER THERE ARE MANY FORMULAS TO CHOOSE FROM TO FIND THE RELIEF YOU SO DESPERATELY SEEK. LIKE KIM, YOU'LL TRY JUST ABOUT ANYTHING TO PUT OUT THE FIRE.

You'll soon discover that *MenoCalm*® is different. If it doesn't work better than anything you've tried, we'll promptly refund your money. Now's the time to change your treatment for the "change of life".

Finally, there's a tested and proven formula that provides prompt, effective relief from the moodiness, hot flashes and the annoying night sweats and sleeplessness so often associated with the troubling onset of Perimenopause (which can begin as early as age 35) and Menopause.

We've heard many stories just like Kim's. She began having hot flashes in February and tried a health food store product, but it didn't give her the relief she wanted.

In her own words, "I started taking *MenoCalm*® every day and I could definitely tell the difference. I forgot to order more and ran out, only to wake up at 3:30 in the morning completely soaked, and I couldn't go back to sleep forever."

*MenoCalm*® is the proven, 100% natural, homeopathic choice over the conventional, and harmful, hormone replacement therapies now prescribed to women. *MenoCalm*® contains no hormones or Isoflavones, so there are no known side effects. The *New England Journal of Medicine* recently warned users of hormone replacement therapy that, among the negative side effects, there are certain life-threatening cancers.

A recent article in the *Philadelphia Inquirer* warned about taking soy based products in many over-the-counter remedies, and clearly showed that the active ingredient in *MenoCalm*® is significantly better.

TESTED & PROVEN TO BLOCK THE HORMONE THAT TRIGGERS UNBEARABLE HOT FLASHES AND NIGHT SWEATS.

The amazing key ingredient in *MenoCalm*® actually keeps "hot flashes" from happening. This ingredient (*Cimicifuga racemosa*) was discovered by Native Americans as a remedy for "female ailments".

It is also Germany's top-selling menopausal natural remedy and the 41,000 member American College of Obstetricians and Gynecologists just issued guidelines showing it is beneficial in treating menopausal symptoms.

It was compounded with other important factors by pharmacists at Hyland's, a natural health company that began in 1903 and were the first to make "pink baby aspirin" in the mid 20th Century. This formula is so safe and effective, you'll soon be writing us your testimonial. And Hyland's is the company that makes *Calms Forte*®. America's #1 selling natural sleep aid.

You risk nothing and have so much to gain. Taken as directed, you'll soon experience the comfort and calm that *MenoCalm*® provides. There's no risk with our...

MONEY-BACK GUARANTEE!

Also provides 100% of your recommended daily requirement of Calcium to protect bone density!

If you're already taking something else, we simply ask that you try *MenoCalm*® for a few weeks, and if you don't experience incredible relief from sizzling "hot flashes" and other menopausal symptoms, return your bottle for a full refund of the purchase price.
